SUMMARY

I am a dedicated Front-End Developer specializing in React, with hands-on experience in building dynamic and responsive web applications. My projects include an interactive personal blog platform and a CRUD application, both developed using front-end tools like HTML, CSS, Bootstrap and JS. With strong problem-solving skills and a passion for continuous learning, I am eager to apply my technical knowledge to deliver innovative solutions.

EDUCATION

Bachelor of Information Technology   Oct 2022 - Present
- Computer Science student (Information Technology Section) at EELU university
- Total GPA: 3.2

React Front-End internship in DEPI   April 2024 - Present
- Web development basics
- Front-End basics
- HTML, CSS, Bootstrap, JS and React
- React Front-End course

English course in OTO Courses   May 2024 - July 2024
- Improved fluency in spoken English.
- Developed strong skills in academic writing.
- Improved ability to write clear, concise, and professional business emails in English.
- Developed effective communication and negotiation skills for handling meetings in English.

Freelancing Course in Elharefa   October 2024 - November 2024
- Learned essential skills for freelancing and starting an online business.
- Developed skills in market research to identify business opportunities.
- Learned effective client communication and negotiation strategies.
- Enhanced personal branding and portfolio-building skills.

KEY SKILLS

Technical Skills
- HTML5 & CSS3
- Bootstrap
- JavaScript (ES6+)
- React.js
- Version control (Git/GitHub)
- Responsive Web Design
- Problem solving

Soft Skills
- Team Collaboration
- Communication
- Time Management
- Adaptability
- Continuous Learning

CERTIFICATIONS & COURSES

- React web development Internship in DEPI (April 2024)
- React web development course in ITC (July 2024)
- Freelancing Course, Elharefa (October 2024)
- English Course, OTO Courses (September 2024)

NOTABLE PROJECTS

1- Portfolio

Tech Stack: HTML5, CSS3, JavaScript, Bootstrap
- Created a personal portfolio to showcase my front-end skills, featuring interactive animations and smooth scrolling effects.
- The website shows information about me, my skill, my previous work and contact information

2- CRUD Application for Product Management

Tech Stack: HTML5, CSS3, JavaScript
- Developed a CRUD (Create, Read, Update, Delete) application that allows users to manage product data effectively.
- Users can add, delete, update, and search for products.
- Utilized local storage for data persistence, ensuring that information remains intact until manually deleted or when browser data is reset
- Focused on creating a user-friendly interface with responsive design principles.

3- Bookmark Management Website

Tech Stack: HTML5, CSS3, JavaScript, Bootstrap
- Created a bookmark management website that enables users to save, delete, update, visit, and search for their favorite bookmarks.
- Users can add, delete, update, and search for products.
- The application leverages local storage for data management, allowing users to maintain their bookmarks without losing them unless they choose to clear their browser data
- Implemented intuitive navigation and responsive design to enhance user experience.
